The Short Poop

A short newsletter

As we're inundated lately with preparations for the open house, we haven't found the time to put together a complete newsletter for you, so we beg your patience for this month's issue, and hope that we see you on Sunday the 11th!

Come on In!

For our final repeat of our Open House info: All of our current and prospective new clients are welcome to stop in and visit us on Sunday July 11th. The Open House hours are from 11:00am to 3:00pm. During this time, we'll be giving tours throughout the facility and grounds, and there'll be snacks, giveaways, and a door prize valued at well over \$100! (This is an event that is open to the public, so we ask that only humans attend this portion of the day, please.)

There IS a rain date for the open house, and that is for the following Sunday (the 18th) with the same 11-3 time frame.

For our existing customers: For this year, we've added another event! Following the Open House, there will be a grill fest, at which time you AND your dog(s) are invited to come and hang out with us here. Your dog will be able to hang with his/her pals while you grab a burger!

This is something we look forward to and enjoy doing, so we hope we see you here on the 11th!

A Feather in our Cap

To the left you'll see a scanned image of a certificate we received a short time ago from the Better Business Bureau of Greater Boston. It is in recognition of the fact that the BBB has received no complaints about Kamp K9 over a 36-month reporting period. The certificate now hangs on our bulletin board above our "Pet Owner Bill of Rights" and "Code of Ethics." The three of these documents are your guarantee that we will deal with you honestly, fairly, and most of all, with the idea that our clients' well-being is our greatest concern, even if it costs us sometimes. (If you haven't seen these documents, you can see them on our bulletin board, or request a copy from us (either a hard copy or via email) at any time.

Take Me Home

We feel that it's a good idea to feature pets who are in need of a loving forever home, particularly since we here at Kamp K9 often hear about animals displaced by the misfortunes of so many people and families in these times. If you know a pet who needs a new home, and who doesn't have the benefit of much publicity, let us know, and if we can help, we will by featuring them here. Information given here is preliminary only and comes from rescue organizations; contact them for more information.

From the files of Canine Commitment in Gorham:

Meet Delilah & Daisy (L & R), who upon transfer to Maine have been called Dakota and Montana! These friendly, sweet-natured and goofy 9-10 month old female Basset Hounds made their way up to Maine to find their forever home(s). While these two sisters would love to go to a home together, they can be adopted separately. Both girls are happy, healthy puppies. (Their eyes, contrary to Daisy's in the photo, are fine at this point). They could use a little further house training, but they're puppies! They are spayed and up-to-date on all vaccines. The adoption fee is \$295 for each puppy. If you are interested in adopting please email caninecommitmentme@gmail.com for more information and an adoption application.

From the Homeless Animal Rescue Team of Maine:

Sweet little Angel is an 8-month-old kitty who has tested positive for Feline Leukemia. She is not showing any clinical signs of illness and is as affectionate and loving as can be. Angel has soft, long, gray hair and lovely, gentle, yellow eyes! HART is desperately looking for a loving home for her where she will be safe and not around other cats... unless, of course, they have Feline Leukemia too! While at HART, Angel will have to reside in a cage in our Intake Room so that she does not interact with any other cats (but will get attention from many caring volunteers). If you have spent time with us, you know that we want all our kitties to be able to interact with their roommates and lounge on windowsills and platforms. We want the same for Angel, and only a home can give that to her. Please consider welcoming this wonderful kitty into your home.

About Feline Leukemia: It can only be transmitted from one cat to another; therefore Angel would be perfectly safe residing with non-feline pets and, of course, humans!
